ABOUT US

Your partner managing the site end to end

EMG İmar is a Kayseri-based engineering firm delivering construction subcontracting and application works across Türkiye. From structural works (formwork, rebar, concrete) to finishing (plaster, insulation, paint, cladding), we provide flexible subcontracting with or without materials.

On residential, villa, commercial, public, industrial and infrastructure projects, we work under civil-engineer management, on safe sites, with a planned schedule and transparent progress payments.

WHY EMG İMAR?

**Expert Team**

Experienced crews led by civil engineers.

**On-time Delivery**

Planned schedule and field tracking for on-time handover.

**Site Safety**

HSE measures compliant with law no. 6331 and safe sites.

**Transparent Payments**

Measurable take-off, traceable payments and complete final account.

Vision

To be Türkiye's reference engineering firm in construction subcontracting, making quality, trust and digital transparency the standard.

Mission

To deliver flawless application works to our clients — on time, safe, on budget and digitally traceable on site.

Our Values

Trust

We keep our promise, on the promised date.

Quality

Full compliance with standards and best practice.

Safety

People first; a zero-accident goal.

Transparency

Full clarity in take-off, payments and progress.

OUR SERVICES

End-to-end construction application services

From single-trade labour to turnkey delivery.

Structural Works

Foundation, shear walls, columns, beams, slabs; formwork, rebar and concrete.

Rebar & Formwork

TS 500-compliant rebar cut-bend-fix and reinforced-concrete formwork.

Plaster & Insulation

Rough/gypsum plaster, satin, external thermal insulation and paint.

Finishing & Application

Masonry, screed, tiling/cladding, joinery and MEP.

Turnkey

Ready-to-use turnkey delivery with materials + labour + responsibility.

Final Account & Payments

Quantity survey, unit-price analysis, progress payments and final-account file.

OUR WORKFLOW

1

Survey & Take-off

Site review and quantity assessment

2

Quote & Contract

Unit prices and terms agreed

3

Execution

Works under engineer control

4

Payments & Final Account

Transparent measurement & payment

5

Handover

Flawless and on time

Strong team, full equipment — safety first

The workforce, gear and safety culture to carry large-scale projects.

Experienced Team Spirit

Civil engineers, site chiefs and expert formwork-rebar-concrete and plaster-insulation crews and subcontractors — a committed, well-coordinated workforce.

Full Equipment Fleet

System/timber formwork, scaffolding, tower and mobile cranes, concrete equipment and machinery to run large sites without interruption.

Safety First

Safety is non-negotiable for us. Under law no. 6331 we work with PPE, regular site inspections, HSE training and a “zero-accident” goal. Every partner completing their work safely is our priority.

✓ **Trust, on-time delivery and transparency — the corporate foundation of big projects.**

QUALITY · ENV · OHS — Management system standards we work by

✓ ISO 9001 Quality

✓ ISO 14001 Environment

✓ ISO 45001 OH&S

 ONGOING WORKS

Your works, tracked digitally and shared transparently with partners

We track ongoing works and team collaboration in real time, and share the work calendar and project timelines with our clients and business partners.

Real-time Work Tracking

Ongoing works and team activity are tracked live via our web and mobile app; progress stays up to date.

Work Calendar & Task Plan

Every task is placed on a calendar; who does what and when is planned and shared with the field team.

Project Timelines

Start-end dates and schedules of each work are tracked; delays become visible early.

Partner Sharing

Clients and business partners follow their projects online with dedicated permissions — full transparency.

With dedicated membership and permissions for our clients and partners, we offer 24/7 access to tasks, work calendar, progress and timesheets from their own screens. All stakeholders see the same accurate information at the same time.
